

The 5th of November: End the Mandates!

Declaration

We the People, in order to restore our Natural Liberties, declare the 5th of November, 2021 at noon, as the date and time we gather in peaceful protest worldwide, to end all medical mandates, specifically those impeding our Life, Liberty and the Pursuit of Happiness, through the medical tyranny of imposed or coerced wearing of medical devices or taking of medical formulations on or in our bodies by injection *or any other means*. We hereby declare sovereignty of our own physical bodies, as any other ownership claimed by authoritarian government or medical establishment is clearly a form of human slavery, which we abhor and condemn.

Execution

With the intention of achieving a global level of visual clarity & massive impact -- a *critical mass* to garner international media attention, *singular* in power and effect -- we realize carefully strategized and highly focused tactics *must* be employed.

The left has demonstrated their understanding of effective messaging by being easily identifiable and showing unity. It is *our turn* to streamline, focus and take our efforts to a *higher level* in a dazzling show of force *never before seen* for Liberty.

We must become like lasers, not allowing our efforts to be scattered and diffused. With our dedication and fortitude, if we only focus together on this one day, we will undeniably be a *force to be reckoned with*, to strike fear into the hearts of tyrannical government politicians and their corporate cronies.

To this end we realize certain sacrifices must be made by *all of us*. These sacrifices, however, will be inconsequential compared to the rewards we will rightfully win back; namely our Liberty.

Our necessary sacrifices and strategies:

1. Accept this invitation and prioritize its execution on this day, the 5th of November at noon, 2021.
2. Agree to adhere to these specific instructions for *effective* and *efficient* presentation, to include:
 - We will wear the Guy Fawkes mask to show unity of message and strength of conviction, as the crowd in the last scene of the film, "[V for Vendetta](#)." We will wear simple, black (dark blue or brown, if black is not an option) attire so as not to distract from the *clarity and focus* of our messaging, against medical tyranny.
 - We agree to bring only signs with the clear and unified messaging referring specifically to "End the Mandates," "No Forced Injections," "My Body, My Choice" etc.
 - We agree to refrain from bringing signage or wearing attire with other messaging referring to other issues -- valid though they may be -- referring to election fraud, new political campaigns, 5G Dangers, Climate Change, Abortion, Chemtrails, or featuring attacks on guilty parties such as Anthony Fauci, Bill Gates and others. Remember, the reason we are adhering to these disciplined guidelines, is to achieve an *extraordinary execution & powerful presentation*, one that will *go down in history*.
3. Endeavor to share this message far and wide to all Liberty oriented groups and individuals, being absolutely certain to share this message, its stated goal and sacrifices accurately, taken *directly* from this document without error or edit. Our message needs to remain *pure* to be powerful.

In Conclusion

Together, we will prevail for Liberty. For Her we will put aside any subtle *or* deep-seated difference of party or preference. We will stand together, shoulder to shoulder, every religion, every sect, every age, every race, as *one* for the true Human Rights of Sacred Liberty. This will be our clarion call.

Some see our fight as one between David and Goliath, as the tiny & weak against the great & mighty. However, this is not true. For we are *many* and they are *few*.

Let us go forward in *unity* through our love of Liberty, *strength* in our numbers and with the undeniable confidence of the *just*, to a victory for Liberty the world has never seen.
